Produced by:  Global-Roam™

Purchase Information

The **Generator Statistical Digest 2020** (GSD2020) has been released in January 2021 and was developed by Global-Roam Pty Ltd and Greenview Strategic Consulting. The GSD2020 is an update to our *Generator Statistical Digest 2019* that we released one year earlier, and we envision that its publication will become an annual event.

The GSD2020 contains performance statistics for each operational generator (and storage facility) in the NEM that operated during 2020, including:

1. 10 year historical overview of key metrics, spanning 2011 to 2020 calendar years
2. 12 month detailed performance profile for the 2020 calendar year
