Generator Statistical Digest 2023

Produced by  Global-Roam™

Background

The **GSD2023** is scheduled to be released in early February 2024 and will be the fifth annual update to the *Generator Statistical Digest* series developed by **Global-Roam Pty Ltd** and **Greenview Strategic Consulting**.

In a similar format to previous years, the GSD2023 contains performance statistics for each generation and storage unit in the NEM that was operational in ENERGY in 2023. For each unit, the GSD displays an A and B page which shows:

- 10 year historical overview of key performance metrics, spanning 2014 to 2023 calendar years
- 12 month detailed performance metrics for the 2023 calendar year

As an optional extra, we have also made an extract of the data contained within the tables and charts of the GSD2023 available which you can order in addition.

Your payment won't be taken, or tax invoice provided, until your hard copy and electronic PDF access has been delivered.
