## Purchase Information

We're contemplating the development of a Generator Statistical Digest 2019, which would follow on from the work completed in the Generator Report Card 2018 (as a client who has previously purchased the Generator Report Card 2018, we're making this offer **exclusively to you**).

The Statistical Digest (should we develop it) would be made available in January 2020 with a focus particularly on 2019. We would take the design of Part 3 in the Generator Report Card and modify it in three main ways:

Mod 1) We would update the data to span 2010 to 2019 (i.e. most recent 10 years)

Mod 2) We would only show data for DUIDs that were operational in 2019 (i.e. old ones removed)

Mod 3) We would add an extra page for every DUID and, on this extra page, drill into more detail of generator performance just for 2019 – in particular focusing on some aspects explored in the analytical component of the Generator Report Card.

What we have in mind is described further here:
